#### Overview

### HP ProLiant DL380 Generation9 (Gen9)

The HP ProLiant DL380 Gen9 Server delivers the best performance and expandability in the HP 2P rack portfolio. Reliability, serviceability and near continuous availability, backed by a comprehensive warranty, make it ideal for any environment. Deploy the data center standard.

#### Front View - 8SFF Chassis with Optional Universal Media Bay shown

- 1. Quick removal access panel
- 2. Universal Media bay. 2 USB 2.0 and VGA standard (8SFF bay optional)
- 3. Optional Optical drive. Requires Universal Media bay
- 4. Optional 2 SFF HDD, blank shown. Requires Universal Media bay
- 5. Drive Bay 2. Blank shown, 8SFF optional
- 6. 8 SFF Drive Cage Bay
- 7. Power On/Standby button and system power LED button
- 8. Health LED
- 9. NIC status
- 10. UID button
- 11. USB 3.0
- 12. Serial label pull tag

**Rear view** 

#### Overview

- 1. PCI Slots (Slots 1-3 top to bottom, riser shipped standard)
- 2. PCI Slots (Slots 4-6top to bottom, requires second riser
- card, and second processor)
- 3. Optional serial port
- 4. Optional rear 2 SFF HDD (supported in 24 SFF or 12 LFF front end)
- 5. HP Flexible Slot Power Supply bay 1 (800w shown) NOTE: Optional Micro UPS option.
- 6. Power supply Power LED
- 7. Power supply Power connection
- 8. HP Flexible Slot Power Supply bay 2 (800w shown)
- 9. Power supply Power LED
- 10. Power supply Power connection
- 11. VGA connector
- 12. Embedded 4x1GbE Network Adapter
- 13. Dedicated iLO connector
- 14. USB 3.0 connectors (2)
- 15. Unit ID LED
- 16. Optional FlexibleLOM ports (Shown: 4x1GbE)

**Internal View** 

#### Overview

- 1. Fan cage shown with 6 standard Hot-plug fans (High Performance fans optional)
- 2. 2 Processors, heatsink showing, with HP Smart Socket Guide
- 3. Optional HP Smart Storage Battery
- 4. DDR4 DIMM slots. Shown fully populated in 24 slots (12 per processor)
- MicroSD card slot NOTE: Optional Dual MicroSD.
- 6. Internal USB 3.0 connector
- 7. Optional HP Flexible Smart Array or Smart HBA (H240ar shown)
- 8. (Under) Hot Plug redundant HP Flexible Slot Power supplies **NOTE:** Optional Micro UPS option.
- 9. Connection for second (optional) riser (Required second CPU)
- 10. Embedded 4x1Gbe NIC
- 11. Primary PCIe riser, standard (Optional double wide GPU riser)
- 12. Optional Flexible LOM slot
- 13. X4 SATA ports (1 and 2)

#### What's New

- New larger capacity HDDs (up to 8TB LFF), Max capacity 120TB
- New higher capacity memory (64GB), Max capacity 1.5TB
- New Networking options

### Standard Features

NOTE: For more information regarding Intel Xeon processors, please see the following http://www.intel.com/xeon.

#### Standard Features

Memory Protection Advanced ECC

Online spare

Advanced ECC uses single device data correction to detect and correct single and all multibit error that occurs within a single DRAM chip. Memory online spare mode detects a rank that is degrading and switches operation to the spare rank.

Warranty	This product is covered by a global limited warranty and supported by HP Services and a worldwide network of HP Authorized Channel Partners resellers. Hardware diagnostic support and repair is available for three years from date of purchase. Support for software and initial setup is available for 90 days from date of purchase. Enhancements to warranty services are available through HP Care Pack services or customized service agreements. Hard drives have either a one year or three year warranty; refer to the specific hard drive
	QuickSpecs for details.
	<b>NOTE:</b> Server Warranty includes 3-Year Parts, 3-Year Labor, 3-Year Onsite support with next business day response. Warranty repairs may be accomplished through the use of Customer Self Repair (CSR) parts.
	These parts fall into two categories: 1) Mandatory CSR parts are designed for easy replacement. A travel and
	labor charge will result when customers decline to replace a Mandatory CSR part; 2) Optional CSR parts are
	also designed for easy replacement but may involve added complexity. Customers may choose to have HP
	replace Optional CSR parts at no charge. Additional information regarding worldwide limited warranty and
	technical support is available at: http://h18004.www1.hp.com/products/servers/platforms/warranty/index.html.

### Optional Features

Storage Software Whether you need to solve a specific data protection, archiving, or storage command and control challenge, or deliver on strategic consolidation, compliance, or continuity initiatives, look no further than HP storage software. Our storage software helps you reduce costs, simplify storage infrastructure, protect vital assets and respond faster to business opportunities. Storage software that gets the job done:

• Data Protection and Recovery Software Whether you're a large enterprise or a smaller business, HP data protection and recovery software will cost-effectively protect you against disaster and ensure business continuity.

- Data Archive and Migration Software HP's storage software enables you to comply with data retention and retrieval requirements, improve application performance, and reduce costs by efficiently migrating infrequently accessed or less valuable data to lower cost storage.
  - Storage Resource Management Software (SRM) HP's storage resource management software reduces operational costs and provides the command and control foundation you need to efficiently manage and visualize your physical and virtual environments.
- Data Replication Software

HP offers array-based and host-based replication software for use in disaster recovery, testing, application development and reporting.

- Storage Device Management Software
   Maximize your investment in HP storage and networking with software that enables hardware-specific configuration, performance tuning and connectivity management.
- HP StoreVirtual VSA

With HP StoreVirtual VSA you can use the power of virtualization to create a virtual array within your host server. Manage it as a single pool of shared storage capacity, and scale it to match your evolving needs. HP ProLiant Gen9 servers include a 3-year limited license for HP StoreVirtual VSA software with 1TB of capacity at no extra cost. Simply select to install HP StoreVirtual VSA software during server setup within Intelligent Provisioning. More information, instructional videos, and free console management software are available at http://www.hp.com/go/vsa1TB.

**NOTE:** For more information about Storage Software including QuickSpecs, please see: http://www.hp.com/go/storage/software.

One Config Simple SCE is a guided self-service tool to help sales and non-technical people provide customers with initial configurations in 3 to 5 minutes. You may then send the configuration on for configuration help, or use in your existing ordering processes. If you require "custom" rack configuration or configuration for products not available in SCE, please contact HP's Customer Business Center or an Authorized Partner for assistance. http://www.hp.com/products/configurator.

#### Service and Support

HP Technology Services

HP Technology Services delivers confidence, reduces risk and helps customers realize agility and stability. Connect to HP to help prevent problems and solve issues faster. Our support technology lets you to tap into the knowledge of millions of devices and thousands of experts to stay informed and in control, anywhere, any time.

HP Care Pack Services enable you to order the right service level, length of coverage and response time as you purchase your new server, giving you full entitlement for the term you select.

#### Protect your business beyond warranty with HP Care Pack Services

Optimized Support recommendation HP Proactive Care - Call to Repair commitment, 24x7 coverage, three year Care Pack Service Prevent problems and stabilize IT by utilizing secure, real-time, predictive analytics and proactive consultations when your products are connected to HP. Includes enhanced escalation management and the industry's highest level of hardware support commitment – hardware will be returned to operating conditions within six (6) hours after you open your case. Comes with collaborative software call management with two hour call back to reduce troubleshooting.

As a leading global support provider for Microsoft, Red Hat, VMware, SUSE and other operating systems, HP is able to simplify and shorten your time to resolution with one call for hardware or software questions. http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA3-8855ENW.pdf.

#### **HP ProLiant Server Hardware Installation**

Help ensure your new HP ProLiant hardware is installed smoothly, efficiently and with minimal disruption to your IT and business operations. http://h20195.www2.hp.com/V2/GetPDF.aspx/5981-9356EN.pdf.

 Standard Support
 HP Proactive Care - 24x7 coverage, three year Care Pack Service

 recommendation
 This service helps prevent problems and stabilize IT by utilizing secure, real-time, predictive analytics and proactive consultations when your products are connected to HP. Includes four hour response for hardware, and collaborative call management for software with a two hour callback.

 http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA3-8855ENW.pdf.

#### **HP ProLiant Hardware Installation**

Help ensure your new HP ProLiant hardware is installed smoothly, efficiently and with minimal disruption to your IT and business operations. http://h20195.www2.hp.com/V2/GetPDF.aspx/5981-9356EN.pdf.

#### Related Services Data Center Platform Consulting Services

These services help modernize key systems and leverage new technology to support a changing business climate and prepare you for the new style of IT. HP understands the needs of the data center of the future and will serve as your guide for the journey. http://www.hp.com/services/consulting

#### Service and Support

#### **Data Privacy Services**

Protect your data through better media management. HP Data privacy services help manage and protect sensitive data. http://www.hp.com/services/dataprivacy

#### Factory Express for Servers and storage

HP Factory Express offers configuration, customization, integration and deployment services for HP servers and storage products. Choose how your factory solutions are built, tested, integrated, shipped and deployed. http://www.hp.com/go/factory-express.

#### **HP** Foundation Care

Hardware and software support services provide easy connection to HP to resolve support issues quickly. Includes collaborative call management for industry leading software; full software support may also be purchased, giving you one place to call for help. http://www.hp.com/services/foundationcare.

Additional HP Care Pack services can be found at: http://www.hp.com/go/cpc.

Parts and Materials herein product in operating condition, including parts and materials for available and recommended engineering improvements.

Parts and components that have reached their maximum supported lifetime and/or the maximum usage limitations as set forth in the manufacturer's operating manual, product quick-specs, or the technical product data sheet will not be provided, repaired, or replaced as part of these services.

The defective media retention service feature option applies only to Disk or eligible SSD/Flash Drives replaced by HP due to malfunction.

### **Pre-configured Models**

For the Standard Features shipped in the "Factory Integrated Models", please see the "Configuration Information - Factory Integrated Models" section.

1. Pre-configured models ship with the configurations below. Options can be selected from the Core or Additional options section of this QuickSpecs.

2. HP does not allow factory integration of options into pre-configured models. Any additional options purchased will be shipped separately.

3. If you desire a custom configuration please see "Configuration Information - Factory Integrated Models" section of this QuickSpecs.

4. Not all models are available in all regions. Check with your local country HP offices for availability.

**NOTE:** All Pre-configured Models come populated with some hard drive blanks installed. Should the customer need additional hard drive blanks, they can order more using either P/N 666987-B21: HP SFF Hard Drive Blank Kit or P/N 666986-B21: HP LFF Hard Drive Blank Kit.

**NOTE:** All pre-configured servers ship with a standard 6-foot IEC C-13/C-14 jumper cord (A0K02A). This jumper cord is also included with each standard AC power supply option kit. If a different power cord is required, please check the ProLiant Power Cables web page.

**Caution:** HP recommends that a minimum of two people are required for all Rack Server installations. Please refer to your installation instructions for proper tools and number of people to use for any installation.

### Configuration Information - Factory Integrated Models

This section lists some of the steps required to configure a Factory Integrated Model. To ensure only valid configurations are ordered, H recommends the use of an HP approved configurator. Contact your local sales representative for information on configurable product offerings and requirements.

1. Factory Integrated Models must start with a CTO Server.

2. FIO indicates that this option is only available as a factory installable option.

3. All Factory Integrated Models will be populated with sufficient hard drive blanks based on the number of initial hard drives ordered v the server.

4. Some options may not be integrated at the factory. Contact your local sales representative for additional information.

### Step 1: Base Configuration (choose one of the following configurable models)

[Chassis]	HP ProLiant DL380	HP ProLiant DL380	HP ProLiant DL380	HP ProLiant DL380
		Gen9 24SFF Configure-	Gen9 4LFF Configure-	Gen9 12LFF Configure-
	Gen9 8SFF Configure-	Ç	L L L L L L L L L L L L L L L L L L L	Ů, Ů
	to-order Server	to-order Server	to-order Server	to-order Server
SKU Number	719064-B21	767032-B21	767033-B21	719061-B21
Processor		2 (optional) x HP	Smart Socket Guide	
DIMMSIots		24 DIMM slots for RDIMM	I, LRDIMM DDR4 Memory

Management	iLO Management (stan	dard), Intelligent Provisionir	ng (standard), iLO Advance	d (optional), Insight Control
		(optional), HP C	DneView (optional)	
USB	1 front, 2 in	iternal, 2 rear	No front U	SB support
Ears		HP Quick I	Release Ears	

### Step 2: Choose Required Options (only one of the following from each list unless otherwise noted)

HP Processors	Select one or two processors from Core options-Processor section below,
	<ul> <li>If one processor is desired, select one xxxxxx-L21</li> </ul>
	<ul> <li>If two processors are desired, select one xxxxxx-L21 and one xxxxxx-B21.</li> </ul>
	<ul> <li>Up to 2 processors supported. Mixing different processor models is not supported.</li> </ul>
	• DDR4 speed is the maximum memory speed of the processor. Actual memory speed may depend on the quantity and type of DIMMs installed.
	For the Intel® C600 Chipset E5-2600 Series, the letter preceding the model number indicates the Product
	Line (E3, E5, E7); 2600x v#, 2 = number of CPUs in a Node, 6 is socket/segment designation, 00 =
	Processor SKU, x = L for low power SKUs and v# (not yet designated) = version number.
HP Memory	Select one or more memory from Core options-Memory section below,
	<ul> <li>LRDIMM, RDIMM are all distinct memory technologies and cannot be mixed within a server. The majority of ProLiant Gen9 servers support LRDIMM and RDIMM.</li> </ul>
	• HP memory from previous generation servers are not qualified or warranted with this HP ProLiant Server. HP SmartMemory is required to realize the memory performance improvements and enhanced functionality listed in this document for Gen9.
	• If only one processor is installed, only half of the total DIMM slots are available. When populating with two processors all DIMM slots are available.
	• Kits described as LP include Low Power DIMMs. For more information on ProLiant Energy Efficier Features, see: http://www.hp.com/go/proliant-energy-efficient.
	<ul> <li>Depending on the memory configuration and processor model, the memory speed may run at 2133MHz, 1866MHz, 1600MHz or 1333MHz. Please see Memory Population Table or the Online Memory Configuration Tool at: http://www.hp.com/go/ddr4config.</li> </ul>

.....

#### Configuration Information - Factory Integrated Models

HP Power Supplies Select one or more power supplies from Core Options-Power Supplies section below:

- Prior to selecting a power supply option, it is highly recommended that you review your server configuration in the HP Power Advisor tool to determine the right size power supply for your server configuration. The HP Power Advisor is located at: http://www.hp.com/go/hppoweradvisor.
- Mixing of power supplies in the same server is not supported. All power supplies must be of the same input voltage, output rating, and efficiency rating. If non-matching power supplies are installed, you may receive an error message and/or experience operational issues with your server.

### Step 3: Choose Additional Factory Integratable Options

HP Unique Options	Select one or more Unique options from Core options section below.
	This section may contain FIO options, please see the Unique options section below.
	<ul> <li>FIO indicates that this option is only available as a factory installable option.</li> </ul>
HP I/O Expansion	Select one or more Riser Kit options from Core options section below.
Options	<ul> <li>To take advantage of the additional PCI slot upgrade, the second processor must be installed.</li> </ul>
	<ul> <li>This section may contain FIO options, please see HP I/O Expansion Options section below.</li> </ul>
	<ul> <li>FIO indicates that this option is only available as a factory installable option.</li> </ul>
HP Drives	Select one or more drives from Core options-HP Drives section below:
	<ul> <li>The components of a storage subsystem (e.g. the drive, the HBA/controller, firmware, and the server backplane) should operate at the same data transfer rate or the system bandwidth will be negotiated down to an acceptable level for all components.</li> </ul>
	<ul> <li>Hard drives have either a one year or three year warranty; refer to the specific hard drive QuickSpecs for details.</li> </ul>
	• The HP ProLiant Gen9 Smart Storage solutions are equipped with re-designed Small Form Factor (SFF 2.5 in) and Large Form Factor (LFF 3.5 in) hot plug carriers for HP Qualified Hard Drives and Solid State Drives. These new carriers provide status and activity indicators as well as caution indicators for "Do Not Remove".
HP Flexible LOM	Select a FlexibleLOM from Core options-Networking section below,
	<ul> <li>Only one FlexibleLOM can be added to the server. These options are upgradeable and can be changed from the original configuration after the server is shipped.</li> </ul>
	• For 10Gb adapters, a minimum of two Gigabytes (2 GB) of server memory is required per each adapter.
	<ul> <li>Please see the QuickSpecs for Technical Specifications and additional information: http://www.hp.com/go/ProLiantNICs.</li> </ul>
HP Networking	Select a standup NIC adapter from Core options-Networking section below,
	Please see the QuickSpecs for Technical Specifications and additional information:
	http://www.hp.com/go/ProLiantNICs
	• These options are upgradeable and can be changed from the original configuration after the server
	is shipped.
	<ul> <li>For 10Gb adapters, a minimum of two Gigabytes (2 GB) of server memory is required per each adapter.</li> </ul>
HP Storage	Select one or more Storage options from Additional options section below.
Controllers	<ul> <li>The embedded B140i controller will operate in UEFI only mode. For legacy support an additional controller will be needed, and for CTO orders please also select the Legacy mode settings part, 758959-B22</li> </ul>
	<ul> <li>This section may contain FIO options, please see HP Storage Controllers section below.</li> </ul>
	<ul> <li>FIO indicates that this option is only available as a factory installable option.</li> </ul>
HP Graphics	Select one or more graphics adapter from Additional options section below.
Options	Please see the HP Power Advisor for estimated power consumption of your individual system     configuration prior to installing GPUs. The HP Power Advisor is located at:
	http://www.hp.com/go/hppoweradvisor.
	<ul> <li>This section may contain FIO options, please see HP Computation &amp; Graphics Accelerators section below.</li> </ul>
HP Cooling Options	Select one or more Fan Kits from Core options section below.
	<ul> <li>This section may contain FIO options, please see HP Cooling Options section below.</li> </ul>
	• FIO indicates that this option is only available as a factory installable option.
HP Rail Kits	Select one type of rail kit from Additional options section below.

#### **Configuration Information - Factory Integrated Models**

- Please take a moment to review the installation documentation that comes with the server to help you with the installation of your Gen9 server.
- To assist in the installation of the server into the rack, an optional installation tool is available by contacting your local services representative (p/n 695539-001).
- See HP Rack Options in Additional Options section of this QuickSpecs for more rack kit choices. **Caution:** HP recommends that a minimum of two people are required for all Rack Server installations.

Please refer to your installation instructions for proper tools and number of people to use for any installation.

### Core Options

s may not be integrated at the factory. To ensure only valid configurations are ordered, HF gurator. Contact your local sales representative for additional information.	Precommends the use of
 HP DL380 Gen9 Universal Media Bay Kit	724865-B21
<b>NOTE:</b> The HP DL380 Gen9 Universal Media bay provides front VGA and 2xUSB 2.0; plus support for 2xSFF front drives (724864-B21) and ODD support (No included); and can only be located in Bay1 in either a 8SFF or 8+8SFF front end.	724000-021
HP DL380 Gen9 Graphics Enablement Kit <b>NOTE:</b> This kit includes alternative 2 heatsinks plus6 cables to enable GPU support. Other limitations apply, see Graphic section for more details. <b>NOTE:</b> We support up to 2 Double wide and 3 single wide Graphics cards, limitations apply.	719082-B21
limitations apply	710070 P21
HP DL380 Gen9 High Performance Fan Kit <b>NOTE:</b> This kit is required for specific Ambient temperature environments, more details here: http://www.hp.com/servers/Ashrae. <b>NOTE:</b> This kit is also required to support Passive GPUs.	719079-B21
HP DL380 Gen9 2SFF Front/Rear SAS/SATA Kit <b>NOTE:</b> For 2SFF front the Universal Media Bay (724865-B21) is required. <b>NOTE:</b> 2SFF in the rear is only supported with a 24SFF (CTO chassis or field upgraded) or 12LFF (719061-B21) front end. <b>NOTE:</b> 2SFF Rear drives are not supported with 160W Processors	724864-B21
HP DL380 Gen9 3LFF Rear SAS/SATA Kit NOTE: This is only supported in the 12LFF chassis (719061-B21). NOTE: 3LFF rear drives will consume the 2nd riser expansion slot. NOTE: 3LFF Rear drives are not supported with 160W Processors	768856-B21
HP DL380 Gen9 Primary 2 Slot GPU Ready Riser Kit Slot1: 1x Gen3 x16 FH/FL, 1xGen3 x8 FH/HL. NOTE: This replaces the standard Primary riser in slot1.	719076-B21
HP DL380 Gen9 Secondary 3 Slot GPU Ready Riser Kit Slot2: 2xGen3 x16 FH/FL, 1xGen3 x8 FH/HL	719073-B21
<ul> <li>HP DL380 Gen9 8SFF Bay1 Cage/Backplane Kit</li> <li>NOTE: To add an additional 8SFF drive cage in Bay1.</li> <li>NOTE: To get to 16SFF total please populate bay 2 with768857-B21 (from an 8SFF starting point).</li> <li>NOTE: This ships with 6 High Efficiency Fans.</li> <li>NOTE: Selecting this option does not allow you to select the Universal Media Bay.</li> </ul>	719067-B21
HP DL380 Gen9 Additional 8SFF Bay2 Cage/Backplane Kit <b>NOTE:</b> To add an additional 8SFF drive cage in Bay 2. This is the optimal solution to upgrade to 16SFF total and allows the flexibility to add the Universal Media Bay (724865-B21) for 2 additional SFF or Optical.	768857-B21
HP 12Gb SAS Expander Card with Cables for DL380 Gen9 NOTE: SAS expander to enable 24SFF field upgrade.	727250-B21
HP DL380 Gen9 Systems Insight Display Kit NOTE: The Systems Insight Display no longer ships as standard but is available as a Factory Integrated or field upgrade option.	768900-B21
HP Legacy FIO Mode Setting <b>NOTE:</b> UEFI is the default, this FIO part can be used for CTO to enable Legacy mode.	758959-B22
HP DL380 Gen9 Rear Serial Port and Enablement Kit	768896-B21

HP DL380 Gen9 Intel® Xeon® E5-2698v3 (2.3GHz/16-core/40MB/135W) Processor 781913-B21 Kit **NOTE:** Ships with a High Performance Heatsink.

Core Options		
	HP DL380 Gen9 Intel® Xeon® E5-2699v3 (2.3GHz/18-core/45MB/145W) FIO	781915-L21
	Processor Kit	
	<b>NOTE:</b> Ships with a High Performance Heatsink. <b>NOTE:</b> FIO indicates factory integrated option via CTO.	
	HP DL380 Gen9 Intel® Xeon® E5-2699v3 (2.3GHz/18-core/45MB/145W) Processor	781915-B21
	Kit	
	<b>NOTE:</b> Ships with a High Performance Heatsink.	
	HP DL380 Gen9 Intel® Xeon® E5-2687Wv3 (3.1GHz/10-core/25MB/160W) FIO	762768-L21
	Processor Kit NOTE: Ships with a High Performance Heatsink.	
	<b>NOTE:</b> FIO indicates factory integrated option via CTO.	
	<b>NOTE:</b> This processor is not supported in a 12LFF or 24SFF Chassis + Rear drives	
	HP DL380 Gen9 Intel® Xeon® E5-2687Wv3 (3.1GHz/10-core/25MB/160W)	762768-B21
	Processor Kit	
	<b>NOTE:</b> Ships with a High Performance Heatsink.	
	<b>NOTE:</b> This processor is not supported in a 12LFF or 24SFF Chassis + Rear drive.	
	<b>NOTE:</b> Up to 2 processors supported. Performance and Energy Star Model configurations include two processors.	
	NOTE: HT indicates that the processor model supports Intel® Hyper-Threading	
	Technology.	
	<b>NOTE:</b> Turbo2: Intel® Turbo Boost Technology 2.0 provides more computing power when you pood it with performance that adapte to apikes in your workload and	
	when you need it with performance that adapts to spikes in your workload and delivers more performance upside than then previous generation turbo technology.	
	<b>NOTE:</b> DDR4 speed is the maximum memory speed of the processor. Actual	
	memory speed may depend on the quantity and type of DIMMs installed.	
	<b>NOTE:</b> The xxxxx-L21 is the first processor shipped, the xxxxx-B21 is the 2nd	
	processor and ships with 2 additional FANs for factory of field installation.	
	<b>NOTE:</b> Double wide PCIe cards are only supported in risers with the Processors leveraging the High Performance Heatsink. For Processors requiring double wide	
	GPU support please order the GPU enablement kit (719082-B21).	
HP Memory	Registered DIMMs (RDIMMs) for E5-2600v3 Series	
in memory	<b>NOTE:</b> The following memory is supported by the E5-2600v3 series Processors.	
	HP 4GB (1x4GB) Single Rank x8 DDR4-2133 CAS-15-15-15 Registered Memory Kit	726717-B21
	HP 8GB (1x8GB) Single Rank x4 DDR4-2133 CAS-15-15-15 Registered Memory Kit	726718-B21
	HP 8GB (1x8GB) Dual Rank x8 DDR4-2133 CAS-15-15 Registered Memory Kit	759934-B21
	HP 16GB (1x16GB) Dual Rank x4 DDR4-2133 CAS-15-15-15 Registered Memory Kit	726719-B21
	HP 32GB (1x32GB) Dual Rank x4 DDR4-2133 CAS-15-15-15 Registered Memory	728629-B21
	Kit	
	NOTE: Depending on Processor selected this memory will run at 1600, 1866 or 2133MH	Ζ.
	Load Reduced DIMMs (LRDIMMs) for E5-2600v3 Series	
	<b>NOTE:</b> The following memory is supported by the E5-2600v3 series Processors. HP 64GB (1x64GB) Quad Rank x4 DDR4-2133 CAS-15-15-15 Load Reduced	726724-B21
	Memory Kit	120124 021
	HP 32GB (1x32GB) Quad Rank x4 DDR4-2133 CAS-15-15-15 Load Reduced	726722-B21
	Memory Kit	
	HP 16GB (1x16GB) Dual Rank x4 DDR4-2133 CAS-15-15-15 Load Reduced	726720-B21
	Memory Kit NOTE: Depending on Processor selected this memory will run at 1600, 1866 or 2133MH:	Ζ.
HP Optical Drives	HP 9.5mm SATA DVD-ROM JackBlack Gen9 Optical Drive	726536-B21

### Core Options

Core Optio	115	
HP Power Supplies	HP Flex Slot Platinum Hot-plug Power supplies HP 500W Flex Slot Platinum Hot Plug Power Supply Kit NOTE: Flex Slot Platinum power supplies support power efficiency of up to 94% and include a standard C-14 power inlet connector.	720478-B21
	HP 800W Flex Slot Titanium Hot Plug Power Supply Kit <b>NOTE:</b> Flex Slot Titanium power supplies support power efficiency of up to 96% and include a standard C-14 power inlet connector.	720482-B21
	HP 800W Flex Slot Platinum Hot Plug Power Supply Kit <b>NOTE:</b> Flex Slot Platinum power supplies support power efficiency of up to 94% and include a standard C-14 power inlet connector.	720479-B21
	HP 800W Flex Slot Universal Hot Plug Power Supply Kit <b>NOTE:</b> Flex Slot universal power supplies support power efficiency of up to 94% and support both 277VAC/380VDC power inputs.	720484-B21
	HP 800W Flex Slot -48VDC Hot Plug Power Supply Kit NOTE: Flex Slot -48VDC power supplies support power efficiency of up to 94%.	720480-B21
	HP 1400W Flex Slot Platinum Plus Hot Plug Power Supply Kit <b>NOTE:</b> Flex Slot Platinum Plus power supplies support power efficiency of up to 94% and include a C-14 power inlet connector that can support HP Power Discovery Services (blue connector).	720620-B21
	HP 750W Flex Slot Hot Plug Battery Backup Module NOTE: Flex Slot Battery Backup provides 750W output and 500W in paralleled configuration. NOTE: Only 1 Battery Backup module per server, and a Flex Slot Power Supply	738024-B21
	needed in parallel. <b>NOTE:</b> All power supplies must be of the same input voltage, output rating, and efficiency rating. If non-matching power supplies are installed, you may receive an error message and/or experience operational issues with your server. <b>NOTE:</b> Mixing different power supplies in the same server may limit or disable some power supply features including support for power redundancy. To ensure access to all available features, all power supplies within the same server should have the same output and efficiency ratings	
	<b>NOTE:</b> Prior to selecting a power supply option, it is highly recommended that you review your server configuration in the HP Power Advisor tool to determine the right size power supply for your server configuration. The HP Power Advisor is located at: http://www.hp.com/go/hppoweradvisor.	
	<b>NOTE:</b> Support for HP Power Discovery Services is included with the 1400W Flex Slot option. Power specifications and technical content for all HP Server power supplies can be found at http://www.hp.com/go/proliant/powersupply. <b>NOTE:</b> Maximum of 2 Flex Slot PS per platform.	
HP Computation and Graphics	HP DL380 Gen9 Graphics Enablement Kit <b>NOTE:</b> This GPU enablement kit includes 2 Heatsinks and 6 cables to enable double wide GPUs to be supported.	719082-B21
	<b>NOTE:</b> For doublewide GPU support you are required to have at least 1x1400W Power Supply (720620-B21), per card. <b>NOTE:</b> There are limitations on the chassis and processor supported when	
	adding Graphics accelerators. <b>NOTE:</b> Passive cards will require the addition of the High Performance Fan Kit (719079-B21).	

(719079-B21).

**NOTE:** We support up to 2 Double wide and 3 single wide Graphics cards, limitations apply

Core Optio	ons	
	HP NVIDIA GRID K1 Quad GPU PCIe Graphics Accelerator	J0G94A
	NOTE: For doublewide GPU support you are required to have at least 1x1400W	
	Power Supply (720620-B21), per card.	
	NOTE: This card only runs at PCIeGen2 speeds.	
	<b>NOTE:</b> The Primary GPU riser (719076-B21) is required to support this in slot1.	
	<b>NOTE:</b> The secondary GPU riser (719073-B21) is required to support this in slot2	
	(2nd processor required).	
	<b>NOTE:</b> There are limitations on the chassis and processor supported when adding Graphics accelerators.	
	<b>NOTE:</b> This card will require the addition of the High Performance Fan Kit (719079-	
	B21).	
	NVIDIA GRID K2 Reverse Air Flow Dual GPU PCIe Graphics Accelerator	753958-B21
	<b>NOTE:</b> For doublewide GPU support you are required to have at least 1x1400W	
	Power Supply (720620-B21), per card.	
	NOTE: This card only runs at PCIeGen2 speeds.	
	NOTE: The Primary GPU riser (719076-B21) is required to support this in slot1.	
	<b>NOTE:</b> The secondary GPU riser (719073-B21) is required to support this in slot2	
	(2nd processor required).	
	<b>NOTE:</b> There are limitations on the chassis and processor supported when	
	adding Graphics accelerators.	
	<b>NOTE:</b> This card will require the addition of the High Performance Fan Kit (719079-	
	B21). NOTE: Max cooling setting required to support in RSBU	
	NVIDIA Tesla K40C 12GB Computational Accelerator	753960-B21
	<b>NOTE:</b> This is supported in all chassis.	755900-621
	<b>NOTE:</b> The Primary GPU riser (719076-B21) is required to support this in slot1.	
	<b>NOTE:</b> The secondary GPU riser (719073-B21) is required to support this in slot2	
	(2nd processor required).	
	<b>NOTE:</b> For doublewide GPU support you are required to have at least 1x1400W	
	Power Supply (720620-B21), per card.	
	HP NVIDIA Tesla K80 Dual GPU PCIe Computational Accelerator	J0G95A
	NOTE: This cards is limited to 1 per system.	
	<b>NOTE:</b> For doublewide GPU support you are required to have at least 1x1400W	
	Power Supply (720620-B21), per card.	
	<b>NOTE:</b> The Primary GPU riser (719076-B21) is required to support this in slot1.	
	<b>NOTE:</b> The secondary GPU riser (719073-B21) is required to support this in slot2	
	(2nd processor required). <b>NOTE:</b> There are limitations on the chassis and processor supported when	
	adding Graphics accelerators.	
	<b>NOTE:</b> This card will require the addition of the High Performance Fan Kit (719079-	
	B21).	
	NOTE: Max cooling setting required to support in RSBU.	
	HP NVIDIA Quadro K2200 Graphics Accelerator	J0G89A
	NOTE: This is supported in all chassis.	
	<b>NOTE:</b> The Primary GPU riser (719076-B21) is required to support this in slot1.	
	NOTE: The secondary GPU riser (719073-B21) is required to support this in slot2	
	(2nd processor required).	
	<b>NOTE:</b> For doublewide GPU support you are required to have at least 1x1400W	
	Power Supply (720620-B21), per card.	
	HP NVIDIA Quadro K4200 Graphics Accelerator	J0G90A
	NOTE: This is supported in all chassis.	
	<b>NOTE:</b> The Primary GPU riser (719076-B21) is required to support this in slot1.	
	<b>NOTE:</b> The secondary GPU riser (719073-B21) is required to support this in slot2 (2nd processor required)	
	(2nd processor required). <b>NOTE:</b> For doublewide GPU support you are required to have at least 1x1400W	

Core Optio	ns	
	HP NVIDIA Quadro K5200 GPU Graphics Accelerator	J0G91A
	<b>NOTE:</b> This is supported in all chassis.	
	<b>NOTE:</b> The Primary GPU riser (719076-B21) is required to support this in slot1.	
	<b>NOTE:</b> The secondary GPU riser (719073-B21) is required to support this in slot2	
	(2nd processor required).	
	NOTE: For doublewide GPU support you are required to have at least 1x1400W	
	Power Supply (720620-B21), per card.	
	NVIDIA Quadro K6000 PCI-E Graphics Adapter	730874-B21
	<b>NOTE:</b> This is supported in all chassis.	
	<b>NOTE:</b> The Primary GPU riser (719076-B21) is required to support this in slot1.	
	<b>NOTE:</b> The secondary GPU riser (719073-B21) is required to support this in slot2	
	(2nd processor required).	
	<b>NOTE:</b> For doublewide GPU support you are required to have at least 1x1400W	
	Power Supply (720620-B21), per card.	040074
	Intel® Xeon® Phi 5110P Coprocessor Kit	C1P87A
	<b>NOTE:</b> This card only runs at PCIeGen2 speeds. <b>NOTE:</b> This is supported in the 728543-B21 riser in the secondary position (second	
	processor required) or in the 752803-B21, primary position. Maximum 2 supported	
	with both risers, support for 2 cards requires the 1400W Power Supply (720620-	
	B21) to be selected.	
	NOTE: Max cooling setting required to support in RSBU.	
	HP AMD FirePro W7100 Accelerator Kit	J0H10A
	NOTE: This is supported in all chassis.	
	<b>NOTE:</b> The secondary GPU riser (719073-B21) is required to support this in slot2	
	(2nd processor required).	
	<b>NOTE:</b> Up to 3 of these single wide cards are supported.	
	HP AMD FirePro S9150 Accelerator Kit	J0H11A
	<b>NOTE:</b> For doublewide GPU support you are required to have at least 1x1400W	
	Power Supply (720620-B21), per card.	
	<b>NOTE:</b> The Primary GPU riser (719076-B21) is required to support this in slot1.	
	<b>NOTE:</b> The secondary GPU riser (719073-B21) is required to support this in slot2	
	(2nd processor required).	
	<b>NOTE:</b> There are limitations on the chassis and processor supported when adding Graphics accelerators.	
	<b>NOTE:</b> This card will require the addition of the High Performance Fan Kit (719079-	
	B21).	
	HP 150W PCI-E Power Cable Kit	669777-B21
	<b>NOTE:</b> Each DL380 Gen9 server will accommodate up to three single-width or two	COCHT B21
	double width PCIe cards for Computational Graphics support. Note that 11.25" is the	
	max length for a card to also allow for cabling. This applies to primary slots 1 & 2 or	
	secondary slots 4 & 5.	
	NOTE: The NVIDIA Tesla, GRID and Quadro modules are supported only on 64-bit	
	versions of Linux and Windows operating systems as well as on Virtual Machine	
	client operating systems. The supported bare metal operating systems are RHEL6,	
	SLES 11 and Windows Server 2012 R2.	
	<b>NOTE:</b> There are limitations on fan types, setting, and chassis support by card.	
	<b>NOTE:</b> Mixing of GPUs is not supported.	
HP Cooling	HP DL380 Gen9 High Performance Fan Kit	719079-B21
Options	<b>NOTE:</b> High Performance Fan kit consists of 6 fans, these will need to replace all the standard Fans in the unit and fill all 6 Fan cares	
	the standard Fans in the unit, and fill all 6-Fan cages. <b>NOTE:</b> The 12LFF and 24SFF chassis (including field upgrades to 24SFF) will	
	already include 6 High Performance Fan kits.	
	<b>NOTE:</b> The High Performance Fan Kit is needed to support certain Passive	
	GPGPU (Graphics cards) configurations; or ASHRAE operating environments.	
	<b>NOTE:</b> For elevated ambient temperature support please see:	
	http://www.hp.com/servers/ASHRAE.

HP Security	HP 2U Security Bezel Kit HP Trusted Platform Module Option NOTE: The TPM (Trusted Platform Module) is a microcontroller chip that can securely store artifacts used to authenticate the server platform. These artifacts can include passwords, certificates and encryption keys. Windows® BitLocker™Drive Encryption (BitLocker) is a data protection feature available in Windows Server® 2008. BitLocker leverages the enhanced security capabilities of a Trusted Platform Module (TPM) version 1.2. The TPM works with BitLocker to help protect user data and to ensure that a server running Windows Server 2008 has not been tampered with while the system was offline. For more information about TPM, including a white paper, go to: http://www.hp.com/go/TPM. NOTE: ProLiant OS pre-installed units will come with the partition required for TPM deployment. NOTE: The TPM key is unique to every TPM deployed server and must be retained. Misplacing or losing the key could result in data loss.	666988-B21 488069-B21

#### Memory

guidelines

Memory Subsystem Each Intel® Xeon® E5-2600v3 family processor socket contains four memory channels per installed Architecture processor with three DIMMs per channel for a total of twelve (12) DIMMs or a grand total of twenty-four (24) DIMMs for the server.

**General Memory Population Rules and Guidelines:** 

#### Memory

- . White DIMM slots denote the first slot of a channel. For 1 DPC (DIMM per channel) populate white slots only.
- A minimum of one DIMM is required per server.
- . Install DIMMs only if the corresponding processor is installed.
- . If only one processor is installed in a two processor system, only half of the DIMM slots are available.
- . To maximize performance, it is recommended to balance the total memory capacity between all installed processors and to load the channels similarly whenever possible.
- . When two processors are installed, balance the DIMMs across the two processors.
- . Populate DIMMs from heaviest load (quad-rank) to lightest load (single-rank) within a channel. Heaviest load
- (DIMM with most ranks) within a channel goes furthest from the processor.
- . Do not mix RDIMMs or LRDIMMs.
- . LRDIMMs are supported up to 3 DIMMs per channel.
- . DIMMs of different speeds may be mixed in any order; the server will select a common optimal speed.
- . The maximum memory speed is a function of the memory type, memory configuration, and processor model.
- . The maximum memory capacity is a function of the memory type and number of installed processors.
- . HP memory from previous generation servers is not compatible with the DL380 Gen9 Server. Certain HP SmartMemory features such as memory authentication and enhanced performance may not be supported.
- . To realize the performance memory capabilities listed in this document, HP SmartMemory is required. For additional information, please see the HP SmartMemory QuickSpecs at: http://h18000.www1.hp.com/products/quickspecs/14225 div/14225 div/14225 div.html (Worldwide).
- For memory population rules and additional memory guidelines, please see the DL380 Gen9 user guide at http://www.hp.com/support.
- There are four (4) Memory channels per processor; eight (8) channels per 2 processor server.
- . There are three (3) DIMM slots for each memory channel; twenty four (24) total slots for 2 processor server.
- Memory channels1 and 3 consists of the three (3) DIMMs that are furthest from the processor.
- Memory channel 2 and 4 consists of the three (3) DIMMs that are closest to the processor.

### Intel Gen9 Supported Memory Bandwidth for HP ProLiant Gen9 Intel® Xeon®E5-2600v3 Series Processor Family

#### Memory Bandwidth and Capacity

[DIMM Type]		Registered DIMMs (RDIMMs)				Load Reduced (LRDIMMs)		
DIMM Rank	Sing	gle Rank		D	ual Rank	nk Quad Rank

### **Technical Specifications**

Environment-	End-of-life	Hewlett-Packard offers end-of-life HP product return, trade-in, and recycling programs in many geographic areas. For trade-in information, please go to:
friendly Products	Management and	http://www.hp.com/go/green. To recycle your product, please go to:
and Approach	Recycling	http://www.hp.com/go/green or contact your nearest HP sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible manner.
		The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard web site at: http://www.hp.com/go/green. These instructions may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who integrate and re-sell HP equipment.

### Summary of Changes

Date	Version History	Action	Description of Change
06/01/2015	From Version 8 to 9	Added	New larger capacity HDDs (up to 8TB LFF), Max capacity 120TB were added.
			New higher capacity memory (64GB), Max capacity 1.5TB was added.
			New Networking options were added.
			Optional Software added to HP Storage Controllers.
		Changed	Updated max HDD and memory capacity due to new options added. HP SmartCache Software, HP Disk Backup System, HP Uninterruptible Power Systems (UPS) were updated.
03/30/2015	From Version 7 to 8	Added	New Hard Drives offering.
			Optical Software added to HP Storage Controllers.
			Added new HP Care Pack Services.
			Added new HP PCIe Workload Accelerator Options.
		Changed	What's New, Standard Features, Unique Options, Power Supplies, HP Storage Controllers, HP Disk Storage Systems, and Technical Specifications were revised.
		Removed	Removed obsolete HP Care Pack Services.
02/17/2015	From Version 6 to 7	Added	Added Smart Buy Models to the NA version only.
02/09/2015	From Version 5 to 6	Added	What's new section was added. Added new HDD offering, new computational Graphics options, and new G4 UPS models.
		Changed	HP Drives, HP Computation and Graphics Accelerators, HP Tape Backup, HP Disk Backup, HP Rack Mount, Consoles, KVM Switches, and Keyboards, and HP Uninterruptible Power Systems (UPS) sections were revised.
12/01/2014	From Version 4 to 5	Changed	Changes made throughout the entire QuickSpecs.
10/13/2014	From Version 3 to 4	Changed	Corrected inconsistencies between Product Bulletin and Concentra versions.
10/13/2014	From Version 2 to 3	Added	6G SATA Enterprise Value G1 Solid State Drives were added to Core Option section.
			HP PCIe Workload Accelerator Options, HP USB and SD options, and HP Care Pack Services were added to the Additional Options section.
		Changed	Standard Features, Optional Features, Pre- Configured Models, Configuration Information - Factory Integrated Models, Core Options, Additional Options, and Memory sections were revised.

### Summary of Changes

9/19/2014
-----------

From Version 1 to 2

Changed

Changes made throughout the entire QuickSpecs.
